MYCLIPON3
RACING ELECTRONIC INSTRUMENTATION

WWW.UAMOTORSPORTS.COM

Professional data acquisition for a club racer's budget!

The MyChron3 line-up from Aim includes models to suit virtually any racer's needs. Record and analyze speed, RPM, lap times, lateral g's, temperature, pressure, gear number, and more. Basic systems including digital LCD dash and laptiming start at just \$349.

All MyChron3 systems include:

- Digital LCD dashboard
- Infrared trackside beacon and receiver
- One temperature sensor of your choice (Exhaust Gas, Water/Oil, or Cylinder Head)
- USB download cable

Additional features available on certain models include:

- Speed sensor
- Digital gear indicator
- Lateral G sensor
- Track Mapping
- Analog sensor capability
- ECU compatibility

Lap Timing & Counting

- All MyChron3 units include an infrared beacon & receiver for automatic lap timing
- Digital dash gives the driver instant feedback about his performance lap to lap
- Best lap notification – System stores best lap time and displays best lap when driver beats the record
- Lap counter – Dash displays lap count, eliminating driver guesswork
- Split times – Split times can be displayed with use of multiple trackside beacons

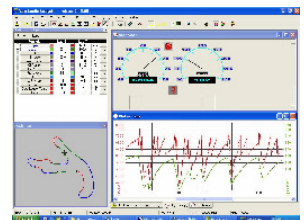

Customizable Digital Dashboard

- Professional LCD backlit display provides valuable information to the driver
- Configurable shift lights – Can be programmed to show driver optimum shift points
- Customizable alarms – Alarm LEDs can be configured to notify driver at specific levels

Powerful Data Logging

- Simple USB download to laptop or desktop PC in seconds
- Compare lap to lap performance to see driver variation or impact of setup changes
- Store up to 250 laps or 4 hours of data
- Real time data playback on display for review in the pits without a PC
- Powerful analysis software included with updates available for free download
